

SUMMARY

AI/ML-focused Computer Science undergraduate with experience in machine learning, computer vision, NLP, and full-stack development. Skilled in Python, TensorFlow, PyTorch, and data analysis. Experienced in building AI-powered applications, deploying ML models, and developing scalable web platforms using React, Node.js, and Django.

SKILLS	AI/ML - Machine Learning, - Deep Learning (CNNs, DNNs), - Computer Vision, - Natural Language Processing, Generative AI, - TensorFlow, - PyTorch, Scikit-learn, - Model Training, Data Analysis	Web Dev - Django, - React, - Tailwind CSS, - HTML, - Next.js, - Node.js. - Vite	Programming - C/C++, - Java, - Python, - Java Script, - Typescript	Tools - cursor AI, - Antigravity, - Emergent AI, - Codex-OpenAI - Git, - Gemini API, - Firebase, - Local LLMs
--------	--	--	---	--

EXPERIENCE

AIML Intern – Infosys

Nov 2025 – Jan 2026

- Built an AI-powered podcast analysis system using Whisper, Sentence-BERT, and Hugging-Face BART.
- Implemented topic segmentation using sentence embeddings and cosine similarity.
- Developed FastAPI backend + Streamlit web interface for automated podcast transcription and summarization.

SDE Intern – Yuga Yatra

- Contributed to backend development using modern web technologies.
- Assisted in designing scalable APIs and database structures.
- Collaborated with developers to implement full-stack features.

PROJECTS

PodC – An Automated Podcast Analyzer

The project PodC has been made to analyze the podcasts and summarize them to a structured transcript.

Detailed link about the project:- [Github link of my project with details](#)

Bonanza – Banana Leaf Nutrient Deficiency Detector [\(deployed link\)](#)

A Tensorflow based Backend Model which was made for detecting a major nutrient which is deficient in a banana leaf by analyzing it's image.

AI integrated Smart Glasses for Visually Impaired (blind people)

An AI model takes information from the environment and gives user insights and ways to move.

EDUCATION	Vellore Institute of Technology 2023 – 2027 India B.Tech in CSE (AIML) CGPA: 8.66 TIC 2025 – semi finalist Sri Chaitanya Junior college 2021 – 2023 Hyderabad, India Junior college Score : 89.6	Languages English, Hindi, Telugu, Marathi, Kannada, Spanish, Japanese Jawahar Navodaya Vidyalaya 2016 – 2021 Hyderabad, India High school Score : 90.8
